Purpose

Adobe believes that wellbeing is foundational to our personal success, our success as a team, and as a company. The Wellbeing Reimbursement Program is designed to support the physical, mental and financial wellbeing of employees and their immediate family by covering a variety of activities and services related to these three wellbeing pillars.

Eligibility

All regular Adobe employees (including interns and Adobe-paid temporary employees where legally required¹) and their immediate family² are eligible to participate in the program. Regular employees include part-time employees who work the minimum hours required to be eligible for benefits. Employees must be employed by Adobe when eligible expenses are incurred (paid for) and submitted for reimbursement.

¹ Interns are eligible in the U.S, Canada, EMEA & LATAM. Adobe paid temporary employees are eligible only in EMEA. View the rate chart for eligible benefit amounts.

² Immediate family consists of spouse/domestic partner and child(ren). In India this also includes dependent parents.

Benefit amounts

The benefit amounts at the end of the document represent the maximum reimbursement amount per calendar year. ([See amounts by country.](#)) These amounts are considered taxable income for employees unless not required by local tax rules. Your Wellbeing Reimbursement Program benefit does not carry forward from one calendar year to the next. If you do not use your benefit, you will forfeit any unused amount.

New hires, and interns in eligible countries, can reimburse a partial amount of the annual maximum allowance. See [amounts by country](#) for more information about your location.

What is covered?

Wellbeing Reimbursement funds are intended to cover eligible items and services that can directly support you or your loved ones' physical, mental, or financial wellbeing. We ask that you use your best judgment in determining what you submit through the program, using these examples of eligible expenses below as a guide. This is not an exhaustive list. If you have an item that doesn't fall into one of these categories, here are some questions to think through:

- Does this item or service enable me, my immediate family, or my pets to engage in activities that benefit our physical, mental, or financial wellbeing?
- If my manager had to approve this item, would they agree that it supports my wellbeing?
- Is this item on the ["Not Covered" list](#)?
- Is this item already covered by another benefit? ([Professional Development Reimbursement](#), [Education Reimbursement](#), medical insurance, etc.)
