Medical plan options

The medical plans that are available to you based on eligibility, home ZIP code (network and plan service area) and other criteria will appear as options on the Adobe benefits enrollment site. The medical plan options available to you can change if you move or experience other changes.

The Aetna Out of Area HealthSave plan is offered to those employees who do not live within the Aetna Choice POS II or Utah Connected networks. This plan is also offered to those employees who go on an official Global Mobility-coordinated, short-term (six months or less) international assignment outside of the U.S.

To elect the Aetna HealthSave or Aetna Out of Area HealthSave plan, you must be able to certify you are eligible to contribute to a Health Savings Account (HSA), because the plans come with an employer HSA contribution. (See Health Savings Account on page 15 for IRS limits, rules, and proration details.) Those ineligible for an HSA due to Medicare or TRICARE enrollment may elect these plans without an HSA if otherwise eligible.

Aetna medical plans

Percentages shown represent the share the plan pays after you meet the deductible (unless otherwise noted). You pay the remaining percentage (your coinsurance). Flat dollar amounts represent the amount you pay (your copay) after you meet the deductible, while the plan pays the remainder.

The deductible is higher for out-of-network providers, as is the percentage you pay (your coinsurance). Additionally, all out-of-network benefits are subject to either the usual, customary, and reasonable (UCR) maximum for providers or 300% of the Medicare cost for facilities. Plan reimbursements are based on the recognized charge.

When evaluating the medical plan option that's right for you, it's important to also consider the **plan cost** (your per-pay-period contribution).

Benefits for the freezing and storage of sperm, eggs, and embryos are covered for up to one year.
