Manage life’s changes

Some life events can be overwhelming. Like having a baby. Or finding out you have diabetes or heart disease.

You may also feel emotions like:
- Worry
- Depression
- Confusion
- Anger

All of these feelings are normal. But they can make it harder for you to take control and make healthy changes.

And it’s important to feel that you can control the health condition or life change, instead of it controlling you.

Real help that fits your schedule

The AbleTo program can help you:
- Work through these normal emotions
- Understand and stick with your treatment plan
- Know the types of changes you need to make
- Feel like you are in control of your health and your life

AbleTo is part of your Aetna membership. But it’s not like traditional programs. It makes it easy to get the help you need.
Support when and where you need it

We’ve teamed up with AbleTo, a leading behavioral health provider, to offer this convenient program.

The goal is to make it easy for you to complete the program. And to help you see that you are in control and can make healthy changes.

Real help that works

Meet face-to-face with a therapist and behavior coach using online video. Or you can simply talk on the phone, if you prefer.

This removes the time and hassle of driving to appointments.

Plus, you choose the times that work best for you. During the day, in the evening or on weekends.

You’ll work with two AbleTo specialists for eight weeks

- Once a week with a therapist to address emotional challenges like depression, stress and anxiety that can come with a medical diagnosis
- Once a week with a behavior coach to identify health goals and develop an action plan

That’s two sessions a week, including a final meeting with your therapist. And it’s all part of your Aetna membership.

Consider AbleTo support if you have experienced one of these health conditions or life changes:

- Infertility
- Breast or prostate cancer recovery
- Heart issues
- Diabetes
- Digestive health
- Pain management
- Breathing problems
- Alcohol or substance abuse
- Depression, anxiety or panic
- Postpartum depression
- Caregiving stress (child, elder or autism)
- Grief and loss
- Military transitions

The Infertility Support Program is designed for women and men who are managing infertility and the emotions that can come with it.
