A health screening today for a brighter tomorrow!

BOOK YOUR HEALTH SCREENING EARLY!

Preventive health screening starts early and continues throughout life. At Parkway Shenton, we tailor health screening packages according to age, medical history, risk factors, family history and health concerns. With our team of experienced healthcare professionals and staff, feel at ease with personalised and attentive care during every visit.

We offer delivery of screening results and a full, targeted review that includes lifestyle recommendations and health advice. For those requiring medical intervention, we provide a one-stop experience with direct access to our specialists, facilities and premium medical services.

Parkway Shenton

Pre-screening Guidelines

In order for us to serve you better, please secure your preferred timing by booking an appointment in advance.

As some tests require fasting (e.g. blood tests and ultrasound abdomen), please abstain from food and drinks for at least 8 hours before your scheduled appointment. Drinking plain water is allowed during the fasting period. Light refreshments will be provided after your fasting tests.

Please be punctual for your appointment to avoid a longer waiting time.

Urine and stool sample kits are available for collection before your appointment at at any of our Executive Health Screeners clinics. Alternatively, the kits will be provided on the day of your screening.

Tests that require prior specialist and facility booking are subjected to availability on the screening date.

Colonoscopy requires additional preparation and will be performed after screening date.

Gastroscopy and Colonoscopy may incur additional charges for removal and diagnosis of polyps. These charges apply even if the endoscopy is included as part of the screening package.

Our doctors are happy to provide a detailed explanation of your screening results and health advice on a review appointment. Your report will be sent to you digitally via MyHealth360 mobile app and email.
