

Life Events and Allowable Changes

Below you will find a list and brief definition of qualifying life events and the related allowable changes. If you require more details, refer to the section titled Making Changes to Your Elections in the [Adobe Group Welfare Plan Summary Plan Description \("SPD"\)](#), which explains the Plan's rules for changing your elections. If you have any questions or need assistance, contact Adobe's Benefits Support Team at 855-898-4218 or by sending a secure message or [chat](#).

The benefit elections you make under the Adobe health and welfare (H&W) program, when you initially enroll as a newly eligible employee or during the annual Open Enrollment, (including any benefits to which you are defaulted) remain in effect throughout the plan year. However, Section 125 of the Internal Revenue Code allows you to change your benefit elections if you experience certain status changes (also referred to as "Life Events" or "Coverage and Cost Events"). Election changes must be submitted on the [Adobe Benefits Enrollment Site](#), and you have 31 days, starting on the date of your status change, to submit. If you do not change your elections within the required time frame, your next opportunity to make a change will be the next annual Open Enrollment period, unless you experience another status change and timely submit your changes. Coverage changes are effective as of the date of your qualifying status change unless otherwise Noted.
